## RUNNING THEM DOWN

Half of the Escaped Convicts Either Killed or Captured.

SHERIFF SEIZED BY THE FUGITIVES.

Armed Poses are Riding In Ever: Direction Determined on Bringing In the Desperadoes Who Are Trying to Get Away.

Kansas City, Nov. 11.—Lawrence Lewis, white, another of the 26 convicts who escaped from the military prison at Fort Leavenworth, was shot and fatally wounded near Quenemo, 10 miles southwest of the penitentiary. Lewis received a bullet in the back while attempting to run away from the city marshal of that place. This makes a total of 13 prisoners captured since the outbreak last Wednesday, leaving 13 still at large. Lewis was received at the penitentiary in October, 1900, under a five year sentence for larceny.

Other posses are pursuing two different gangs of men within 50 miles of the penitentiary and further captures are looked for at any time.

To date four of the notorious convicts have been killed, and five, including the two who made a captive of Sheriff Cook of Topeka and escaped, have been wounded.

The seizure of Sheriff Cook near Pauline by two fugitives, was one of the most daring episodes of the chase. The two convicts were surrounded in the farmhouse of a man named Wooster. Sheriff Cook and Deputy Sheriff Williams were in the posse that pursued and shot at the convicts, wounding them. Thinking the convicts had run around the house Cook darted through the open door, intending to surprise them at the rear door. But instead of this the convicts had gone into the house and the officer almost fell into their arms. Sheriff Cook was ordered to give up his gun, which he did. Deputy Williams by this time had reached the house and entered without knowing what had happened inside, and he, too, was made captive by the convicts. In the meantime Chief Stahl of Topeka with eight officers were on their way. They arrived at the Wooster house about an hour after the officers had been imprisoned. Chief Stahl immediately began negotiations with the convicts to give up their prisoners and to surrender themselves, but the convicts only laughed. Farmer Wooster then got a gun and was about to shoot when one of them laid him low with a blow from the butt of a revolver taken from one of their captives. The convicts broke Wooster's right hand and cut an ugly gash in his head.

One of the convicts told Sheriff Cook that he would be killed if he made the slightest move toward their capture. In the meantime the police officers on the outside had surrounded the building, but were afraid to make a move for fear that Cook and Williams would suffer. Mrs. Wooster had fainted during the excitement. She finally revived, and then the bold convicts placed the woman and Sheriff Cook in front of them as shields and made for the door.

Then, after exacting a promise from the sheriff that he would not permit any of the officers outside to fire on them, they started for the open. As they left the house, the frightened farmer's wife and the submissive sheriff before them, the convicts passed between a cordon of police, who could have easily captured them, and started for the railroad track. The sheriff had in turn exacted a promise from the police that they would not molest the convicts, and they did not.

After covering a considerable distance down the track the convicts suddenly disappeared through a hedge fence, bidding the officers a mocking farewell. The convicts had secured a good start before the officers had recovered from their surprise. Then some of the policemen wanted to pursue, but Sheriff Cook would not permit it, as he had promised the convicts immunity from arrest.

Armed men are marching for the captors of Cook and it does not seem probable that they can get away. Reinforced by the weapons taken from the Wooster farm house and from the officer they are well prepared, however, to make a fierce fight before being captured.

A report from Alma says that a citizens' posse near that place had a running fight with two escaped convicts. One of the pursuers had his horse shot from under him. At Alma the convicts stole two horses and made good their escape. Nothing has yet been heard from the three convicts seen north of this city Sunday evening.

Constantinople, Nov. 11.—Earthquakes continue to be felt at Ezeroum, Armenia. There have been many casualties. The foreign consuls have joined the inhabitants and are living in tents.

## TUBERCULOSIS TEST.

Young Woman of Brooklyn Becomes Sacrifice to Science.

New York, Nov. 11.—Miss Eva H. King of Brooklyn was inoculated with virus from a cow afflicted with tuberculosis by Dr. George D. Barney of Brooklyn. The solution of bovine tubercle bacilli was injected on each side of the woman's neck above the clavicle, the quantity of the injection being about one and one-half drams. She offered to submit to this experiment. It is said, in order that the medical profession might know whether or not Professor Koch's theory that bovine tubercle bacilli cannot infect a human being was correct. The cow from which the virus was taken was inoculated by Dr. Barney sometime ago with virus of a consumptive person. Dr. Barney said he is also anxious to prove that persons suffering from consumption in its early stages can be cured by the inhalation of a compound of the phenol group. Should Miss King be stricken with consumption as a result of the experiment she will undergo the inhalation treatment.

## A. F. L. Organizer Arrested.

Washington, Nov. 11.—Samuel Gompers, president of the American Federation of Labor, protested to the president against the arrest of Santiago Iglesias, who was sent to Porto Rico by the American Federation of Labor to reorganize the workmen of the island. Mr. Iglesias was arrested, according to a cablegram received from him by Mr. Gompers, as he stepped ashore at San Juan, and placed in jail. The nature of the charge against him is not known. President Roosevelt immediately sent an inquiry to Governor Hunt as to the cause.

## Trans-Mississippi Wants.

Santa Fe, N. M., Nov. 11.—L. B. Prince, chairman of the committee appointed by the trans-Mississippi congress at its meeting in Cripple Creek last July to urge certain legislation by congress, announce that the headquarters of the committee will endeavor to have congress take favorable action upon river and harbor improvements, irrigation, forest reservations, establishment of a department of mining and building the Nicaragua canal.

## Treaty of 1817.

Washington, Nov. 11.—Representative Boutelle of Illinois arranged for a future conference with the president on the subject of abrogating the treaty of 1817 with Great Britain, whereby the building of war vessels on the great lakes is inhibited. Mr. Boutelle is much interested in this subject. He says there are a dozen or more ship yards on the great lakes and that the antiquated treaty of 1817 prevents them from sharing the work of building smaller vessels of the navy with the seaboard shipyards.

## Want Tea Tariff Taken Off.

New York, Nov. 11.—The Duty Repeal association, consisting of leading wholesale grocers, jobbers and importers of tea in this country, has just been organized. G. Waldo Smith of Smith and Silis, president of the Wholesale Grocers' association of New York city and vicinity, is president. The object of the association is to secure the removal of the tariff of 10 cents per pound on all tea imported into the country.

## San Francisco's Police Chief.

San Francisco, Nov. 11.—Chief of Police William P. Sullivan, jr., died after an illness of three weeks, aggravated by mental worry and close application to duty during the recent strike. He was well known in this city before he was appointed chief of police early last year. He was then secretary to Mayor Phelan and colonel of the League of the Cross cadets, and had been a prominent member of the national guard.

## Chinese Saved the Sun.

Peking, Nov. 11.—In conformity with a notice which the foreign office sent to the legations, all the Chinese officials in the capital gathered Monday at the board of rites to rescue the sun, which was suffering from a partial eclipse. The rescue was accomplished by prostrations, the burning of incense and in the beating of drums. A few foreigners for the first time in history were permitted to witness the ceremony.

## Want Another Cabinet Office.

Washington, Nov. 11.—Elliott Durand, Laverne W. Noyes and several other Chicagoans, representing the National Business league, presented to the president a memorial, urging him to recommend in his message to congress establishment of a department of commerce and industries and also the reorganization of the consular service on a civil service basis.

Struck Against Reduced Wages. Jeffersonville, Ind., Nov. 11.—A strike was declared at the plant of the American Car and Foundry company by bottomers in the erecting shops of the passenger department. The trouble is over a cut in wages.

## ATTACKED A GARRISON

Filipinos In Mindoro Attempt to Repeat Samar Tactics.

LOST FIVE MEN IN A FIERCE FIGHT.

Natives Recently Received Supply of Munitions of War and Have Soldiers Fully Armed—An American Deserter Captured.

Manilla, Nov. 11.—Major William I. Pitcher of the Eighth regiment of infantry, commanding the Mindoro expedition, reports that the garrison of Abrahe Hog was attacked by a force of Filipinos commanded by Lenocos. The Filipinos apparently attempted to repeat the Samar tactics, but the Americans, who were breakfasting fully armed, completely routed the natives, who left five men dead on the field, each having a rifle and ammunition. One American was wounded.

Major Pitcher says he recently captured three officers and a large part of a Filipino company, all fully armed. It is believed the natives received an illicit supply of ammunition of munitions of war.

Captain Noyes of the Thirtieth infantry, commanding a detachment of 50 men, captured a deserter named Richter of the Sixth artillery, wearing the uniform of a Filipino lieutenant.

Reports from Catbalogan, island of Samar, state that the native troops are flocking northward. They are suffering greatly from famine. Many isolated bolomen have surrendered. Only fear caused by Lukban's proclamation threatening with death those who surrender prevents a general submission of the armed Filipinos, but it is expected that this will be secured in a few days.

Lukban sent a message to General Smith declaring that he will not listen to negotiations for surrender until all the Americans have withdrawn from the Gandara valley. General Smith has ordered every American soldier in the island of Samar and the island of Leyte never to be without arms, even at meal time. He is determined that there shall be no more surprises, and commanding officers will be held responsible. General Smith also directs that scouting must continue incessantly and that all rice and hemp captured must be destroyed. He considers the capture of Lukban only a question of a very short time.

Meetings of the federal convention are turbulent in character, and very little is accomplished. Personal bickerings prevent harmony. Senor Buenacampo challenged Senor Velasco to a duel, but the latter refused to fight on account of the challenger. Many provincial delegates left in disgust.

## Salesman Suicides.

Louisville, Nov. 11.—William Simpson, a salesman for Zinsmeister Bros., wholesale grocers, committed suicide in the law office of Kahn, Baird & Spindle, by taking a draught of carbolic acid when confronted with a shortage of \$1,000. His employer and employer's lawyer were standing near him at the time and Zinsmeister was telephoning to New Albany, where Simpson lived, investigating a claim that two men whom Simpson named would settle his shortage when Simpson took the fatal draught. He died in 15 minutes. He had the poison when he entered the lawyer's office and evidently came there with the intention of killing himself.

## California Citrus Crop.

Los Angeles, Nov. 11.—Careful and conservative estimates of the orange crop of southern California for the season of 1901-02 indicate that it will be from 15 to 20 per cent less than that of last year, and with normal climatic conditions, the fruit will be of excellent quality. There is the usual variance in these estimates, however, and optimistic views being that the crop will equal or exceed that of last season. F. Q. Storey, president of the semi-tropical fruit exchange, thinks this season's crop of citrus fruit will be a trifle less than 20,000 carloads, or about 80 per cent of that which was shipped last season.

## Three Miners Killed.

Stebenville, O., Nov. 11.—Three lives were lost at the Labelle iron works mine. The mine after being flooded for years, was being reopened. Just as James Robertson, Edward Simpson and William Vandine were let down the shaft there was an explosion of gas or fire damp. When the flash came up the shaft the engineer raised the cage through the flames and in it were the bodies of Robertson and Simpson. As the work of recovering the body of Vandine proceeded, friends of the victims gathered at the shaft and there were scenes of great distress.

## French Fleet Flits.

Paris, Nov. 11.—A special dispatch says Admiral Calliard's squadron left the island of Mitylene Monday.

Kolb, of Ripley, and Miss Florence O'Connell, of Lewisburg, were here Monday to attend the funeral of the late John H. Angelbower.

## KENTUCKY CORN CROP IS SHORT.

Agricultural Department Places the Shortage at Twenty Million Bushels for This Year.

The monthly report of the State Agricultural Department places the corn crop at 54 per cent; the wheat crop at 80, with 55 per cent solid; the hemp crop at 90, the percentage of a full crop of tobacco at 79, and the quality of the crop at 90 per cent. The crop is best in the dark districts.

Speaking of corn, the report says: "The estimate on the corn crop made a year ago was 94 per cent. of the ten year average. As our assessors gave the total yield for that year 40,665,306 bushels, with seven of the corn producing counties left out, their figures may be raised at least 3,000,000 bushels, and it will be seen by this estimate that Kentucky is shy over 20,000,000 bushels of this important cereal. Deduct now the portion required for seed and for use in the form of meal, as well as that required by distillers, and there is left a scant supply for our over 3,000,000 of dumb animals."

Scarcity of corn means also lack of fodder. The crop of hay is good, however. The report estimates that 80 per cent. of a full wheat crop has been seeded.

For chapped hands and rough skin use Rav's Edelweiss Cream at Postoffice Drugstore.

## THE TOBACCO CROP.

As a Whole It Is Pronounced a Very Unsatisfactory One.

[The Weed, Louisville.]

Enough is known of the new crop to say that it is as a whole a very unsatisfactory one so far as burley is concerned, as much of it is green and undesirable, and the proportion of bright tobacco will be very small.

In a few blue grass counties there is a splendid texture, color and every essential to please the most exacting manufacturer, but in the larger part of the burley district this does not hold good.

Dark tobacco this year is very fine, in fact the finest that has been grown for years; the color, texture and every essential of good tobacco is there.

A week ago Monday Mr. Con. Guilfoyle of Mayslick was breaking rock when a piece struck his eye. A few days later the eye began paining him and yesterday he left for Cincinnati to consult an oculist in hopes of saving the sight. Mr. Guilfoyle lost his other eye some years ago through an accident.

## A NEW DYNAMITE GUN

It Would Be a Formidable Watchdog For Coast Defense.

AN OFFICIAL TEST JUST COMPLETED.

Projectiles Can Be Hurlled Over Three Miles With Sufficient Charge to Blow a Battleship Out of Existence.

New York, Nov. 11.—Highly successful tests of a new dynamite gun of destructive powers in excess of any weapon hitherto designed were privately conducted by a special board of officers of the bureau of ordnance of the United States army at Fisher Island. The government has for several years been engaged in the erection on Fisher Island of fortifications on a colossal scale, intended to make the eastern entrance to the sound impregnable to naval attack and secure the safety of all the cities along the sound from New London to New York.

In this system of defense the new dynamite gun, which is mounted so as to cover the channel between Fisher Island and Plum Island, on which heavy batteries have also been erected, is expected to play an important part. The utmost secrecy has been enforced by the government relative to the works on Fisher Island and the government has not made public these tests. The gun, which was built in Scranton, Pa., was recently installed in a battery at the western end of the island. It is of the same pneumatic type as the guns of the batteries now in position at Sandy Hook and San Francisco, being 40 feet long, with a caliber of 15 inches, but embodies many new features. The tests were made before a board consisting of Majors McNutt and Blrney of the bureau of ordnance and many artillery officers in the vicinity.

With the full caliber projectile the gun proved its ability to hurl 500 pounds of nitro gelatin, said to be sufficient to annihilate any battleship afloat, a distance of about 3,000 yards with a degree of accuracy not excelled by the latest types of heavy rifled ordnance. Two days were devoted to the tests. The first shot hurled a 6-inch shell, carrying 50 pounds of explosive, a distance of 5,763 yards, bursting on impact with the water and sending a column of water 300 feet into the air. With a 10-inch shell carrying 200 pounds of explosive, the extreme range was found to be 5,460 yards, the shell exploding under water with the desired delay action of two seconds. In the test for accuracy five 8-inch shells were dropped at various ranges, all of which would have taken effect, assuming that the target had been a battleship about three miles away, or about double the distance of 2,500 yards now generally accepted as the limit of a practical lighting range. In the test for rapidity of fire five full-caliber shells weighing 1,185 pounds, were discharged in 11 minutes and 55 seconds, almost bringing the weapon within the class of rapid fire pieces. The test of endurance called for firing within two hours 25 "airshots," or what in an ordinary gun would be called blank cartridge, but no difficulty was experienced in firing 40 shots in that time.

## One of a Noted Family.

New York, Nov. 11.—Oscar F. Livingston, 65, is dead at his home in this city. He was a son of Thomas F. Livingston, one of the founders of the Union club; a grandson of Robert Livingston, last lord of the manor; and a grand nephew of John Swift, several terms mayor of Philadelphia. Mr. Livingston was born in New York. He was formerly connected with mining interests on the Pacific coast and with transportation lines both east and west. He received a considerable sum of money by bequest from his uncle, John C. Stevens of Hoboken, who was in control of the yacht America, when it won its great race half a century ago.

## Won't Buy Bangtails.

Washington, Nov. 11.—President Roosevelt has not been able yet to find a team of horses to his liking. He has examined at least a dozen pairs but all have had some defect. The hostler of the White House stables returned from Baltimore where he visited the horse market, but reported that he found no suitable horses with long tails. The president is opposed to the practice of docking the tails of horses and will not consider the purchase of bang-tailed animals no matter what other qualifications they may have.

Logansport, Ind., Nov. 11.—The plant of the Logan Milling company and the First Presbyterian church building were entirely destroyed by fire. Milling company's loss \$40,000, insurance \$16,000; church loss \$20,000, insurance \$11,000. The publishing house of Wilson Humphreys & Co. and the Episcopal church were slightly damaged.

## IT'S IMPOSSIBLE

To Disprove Facts—It is Decidedly Easy to  
 Verify Maysville Opinion.

Nothing by way of an introduction  
 could be added to the experiences and  
 opinions given below, which would in-  
 crease their value. Maysville people can  
 safely be left to draw their own conclu-  
 sions based on such convincing proof as  
 this citizen offers. What is there lacking  
 in evidence like this to satisfy a dyed-in-  
 the-wool doubting Thomas?

Mr. Elias Souder, nurseryman, resid-  
 ing at 215 Casto street, says: "I had  
 a good deal of pain at times in my right  
 kidney and it constantly grew more per-  
 sistent. When I learned of Doan's Kid-  
 ney Pills I could hardly sit down in  
 a chair or rise without placing my hands  
 to my back, and should I thoughtlessly  
 bend over, it pained me severely to  
 straighten. I procured Doan's Kidney  
 Pills at J. Jas. Wood & Son's drug store,  
 corner of West Second and Market  
 streets, and their use effected an absolute  
 cure."

# THE BEE HIVE

## NO ADMITTANCE

If your child comes to buy we think of you as the customer—not the child.

We are too busy to make a new price for each customer—one does for everybody.

Don't trade at our store if you are satisfied with paying more than you have to. We are after the thousands of women who aren't, who want the most their money will buy. And we are after them as hard as we know how. TRASH? OH, NO! Against such stuff we post the sign, "NO ADMITTANCE, THIS IS THE STORE OF GREATEST ECONOMIES." We couldn't expect nor deserve your patronage by merely doing as well as other stores. WE MUST DO BETTER. And we do. We are proving our right to your trade every day by offering you NEW SEASONABLE merchandise for very much less than any other store asks for EQUAL quality. It's our ambition to be LEAST FOR BEST. Not in a line or two, but through the entire store, in every department here. And the constantly increasing business serves as an eloquent evidence that our efforts are meeting success.

### A WORD

About our 25c. Ladies' Hose. We are determined to make this line popular, and if you will compare our 25c. hose with hose selling by other houses at 35c. and 50c., you will see that we have spared no efforts to popularize it. The fact is on this Hose we are more after your good will than cash.

### ANOTHER WORD.

Something about a trade winner. It's our 25c. Ladies' Vests and Pants. We can tell you so much about them, but if you will come and look, "and seeing his believing," you won't wonder why we order a 1,000 garments of this one number at a time.

## OFFICIAL FIGURES.

### County Board of Election Commissioners Complete Their Work.

### Question Raised in Regard to the Election of Members of Board of Education.

The County Election Commissioners completed their work Monday. The tabulation of the vote was made at Friday and Saturday's session of the Board, but the footing up of the totals was not completed until Monday. Some slight changes were made in the vote for some of the county and also for some of the city officers. The official figures appear elsewhere in this issue.

At Monday's session a point was raised as to the election of members of the City Board of Education. Mr. M. C. Daily demanded a certificate of election to fill the unexpired term of Mr. T. Y. Nesbitt, a member of the board from the Fifth ward. The claim was made that Mr. Nesbitt was never legally elected, having been chosen by secret ballot, when the law requires that the vote for trustees shall be *in view*. Mr. Daily's petition to have his name placed on the poll books showed that he petitioned to be a candidate for Mr. Nesbitt's unexpired term. The point at issue was argued by Messrs. Galbraith and Slatery for Mr. Daily and by Mr. W. D. Cochran for Mr. Nesbitt. Sheriff Perrine signed Mr. Daily's certificate, but the other two commissioners, Messrs. Shea and Gault, refused to do so.

Mr. Daily's attorneys gave notice that they would apply for a mandamus to compel Messrs. Shea and Gault to sign it, and this morning Mr. Shea had about made up his mind to do so. The courts will probably be called on to settle the point.

### HAROVER—GRANT.

Daughter of 'Squire W. B. Grant Quietly Married Sunday at Newport—Will Live in St. Paul.

The marriage of Miss Mary Elizabeth Grant, of this city, to Mr. Percy Harover, of Cincinnati, was quietly solemnized Sunday evening at 7 o'clock at the home of the bride's aunt, Mrs. Dr. Locke, of Newport, Rev. Dr. Whitehead officiating.

The bride is an accomplished young lady, only daughter of 'Squire Wm. B. Grant. The groom is a lithographer and has been engaged in business in Cincinnati for some time. The happy couple leave this week for St. Paul, where the groom has accepted a position.

Mrs. Lucy A. Murphy, wife of Dr. William M. Murphy, an old-time resident of Maysville, died last week in Cincinnati.

James F. Hill and Miss Annie L. Henson, of the county, will wed to-day.

\$1.75 Cincinnati and Return via C. and O. On Monday, Nov. 18th, and Wednesday, Nov. 20th, the C. and O. will sell round trip tickets, Maysville to Cincinnati, at rate of \$1.75. Return limit Nov. 24th. Tickets good on all trains.

Four rural free delivery routes in Jefferson County will be placed in operation early in January.

## QUALITY, PRICE

And a liberal CASH distribution to customers on Christmas day makes business lively here. Satisfied buyers tell others, and that keeps up the perpetual motion in this store.

### BARKLEY'S

## WEDDED AT ST. PATRICK'S.

Marriage of Mr. Thomas McCabe and Miss Kate Hailey at 7 o'clock This Morning.

The marriage of Mr. Thomas McCabe, Jr., and Miss Kate Hailey was solemnized at St. Patrick's Church this morning at 7 o'clock by the pastor, Rev. Father Jones.

The bride, the eldest daughter of Mr. and Mrs. John Hailey, of East Fourth street, was attired in a beautiful traveling costume of blue, with hat and gloves to match.

The groom is an industrious young man, a son of the late Thomas McCabe. He was dressed in the conventional black.

The ushers were Messrs. Will Kinsler and John Burke.

After a wedding breakfast at the home of the bride, the happy couple left for Cincinnati to spend a few days.

The presents were numerous and beautiful. Congratulations and best wishes were extended the bride and groom have a long life of happiness. They will make this city their home.

Bain's lecture begins at half-past seven to night at Christian Church.

Mr. William Quaintance, Jr., is confined to his home with malarial fever.

## "ASK YOURSELF THIS QUESTION!"

Do you, or did you ever buy Clothing anywhere, that every detail which goes toward correct fit, style and desire to give you perfect satisfaction was as closely looked after as it is in our house?

The appointment was made Sunday evening by State Secretary Fox, and Mr. Harrop enjoys the distinction of being the first County Superintendent. The honor could not have been bestowed upon one more worthy. Most of his class of last winter received diplomas from the State union.

## CINCINNATI TOBACCO MARKET.

Offerings Very Light Last Week—Trade Was Dull and Featureless.

The market during the week was an extremely tight one on account of the election, very few of the leading shippers being out the breaks. The total offerings of the week were only 465 hhd., which sold at an average of \$8.07 per 100 lbs., as against \$8.55 for the 201 hhd. in the corresponding week last year. The market throughout the week was dull and featureless, and prices were not notably lower, while there was a little improvement in the common smokers and choice red tips.

Good leaf was very sparingly offered, while colory and fancy leaf continue to be very scarce commodities in the breaks, although some private sales are being made in these grades right along, but the stock of these types in present holdings is very light. Reports from the growing districts indicate that the new crop is coming up very unsatisfactory, and for this reason shippers are showing a strong inclination to hold on to their good tobaccos, awaiting better prices later on.

The greater portion of the offerings during the week were of the low grade types and medium fillers and of scrap tobaccos, selling under \$3.25. Rejections during the week were heavy, being nearly 25 per cent. of the offerings, while receipts also diminished as compared with the previous week, being only 422 hhd.

A lazy liver may be only a tired liver, or a starved liver. A stick is all right for the back of a lazy man. But it would be a savage as well as a stupid thing to beat a weary man or a starving man because he lagged in his work. So in treating the lagging liver it is a great mistake to treat it with drastic drugs. In ninety-nine cases out of a hundred a torpid or sluggish liver is but a symptom of an ill-nourished body, whose organs are weary with overwork. Let your liver alone. Start with the stomach and its allied organs of digestion and nutrition. Put them in proper working order, and see how quickly your liver will become active and energetic. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood making glands, cleanses the system from the poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

## To the Public!

Both our experience and that of the Power Laundry Co., whose plant we have purchased, have convinced us that the system of doing a cash laundry business which prevails in the larger cities is a necessity to a successful continuation of our business. Our patrons who have so loyally stood by a home industry will therefore understand that on and after Wednesday, Nov. 13th, 1901, when cash is required on delivery of packages there will positively be no exception to the rule; all will be treated exactly alike.

Thanking the public for past favors and asking a continuation thereof, we remain, Respectfully,  
THE MODEL LAUNDRY CO.

## COMMISSIONER'S SALE!

MASON CIRCUIT COURT.  
John G. Zweigart, Plaintiff.  
Against  
S. E. Mastin and ails., Defendants.

In obedience to judgments and orders of sale of the Mason Circuit Court, rendered in the above mentioned cause at the June and November terms, 1898, and June term, 1901, I shall, on

Saturday, November 16, 1901,

at 2 o'clock p. m. at the court house door in Maysville, Ky., proceed to sell at public auction, to the highest bidder, on a credit of six, twelve and eighteen months, the following real property, to-wit: That certain tract of land known as the farm of S. E. Mastin, situated lying and being in Mason County, Ky., bounded on the northeast by the lands of Charles Hill, north by the lands of Wyatt Owens, south by the North Fork of Licking river, southeast by the lands of Harrison Poe and ails., south by the lands of Arthur Tompely, east by the lands of Mary E. Rees, and west by Charles Hill's land, containing 504 acres, 3 rods and 18 poles. Land will be offered as a whole and in parcels, and be sold so as to realize the greatest price; or sufficient thereof to produce the sum of money to be made and probable costs to-wit: \$10,200. The purchaser must be prepared to promptly execute bond, with approved security, for the purchase price, which bond shall bear legal interest from day of sale until paid. C. BURGESS TAYLOR, Master Commissioner.

Garrett S. Wall, Attorney for Plaintiff.
